

"Come Grow With Us"

Herb and Veggie Planter Workshop

The Laurel Centre has partnered with [Sage Gardens](#) to host our next exciting FUNdraiser. All proceeds support our programming and help us keep our services free and accessible for our clients!

Join us for an informative workshop on planting and growing edible plants in containers with a focus on Organic Gardening.

This beautiful container is designed and planted by you with a mixture of herbs and vegetables that you can cut and use in your favourite dishes all summer long.

Everything tastes better when you grow it yourself!

Everyone goes home with a fabulous edible planter!

Beverages and Silent Auction for purchase during the event

Included in Workshop Price:

- planter
- organic custom growing mix
- instruction on design, care & maintenance on growing edible plants in containers
- herbs and vegetable plants/seeds

April 30, 2019, 6:30-9:30 pm
Sturgeon Heights CC - 310 Rita St
